Our programmes are built on the active participation of our guests through **playful events** and adventures while some time is also dedicated for **relaxation** in the Hungarian countryside.

At Humtour, we believe that the negative impacts of tourism can be minimized and that

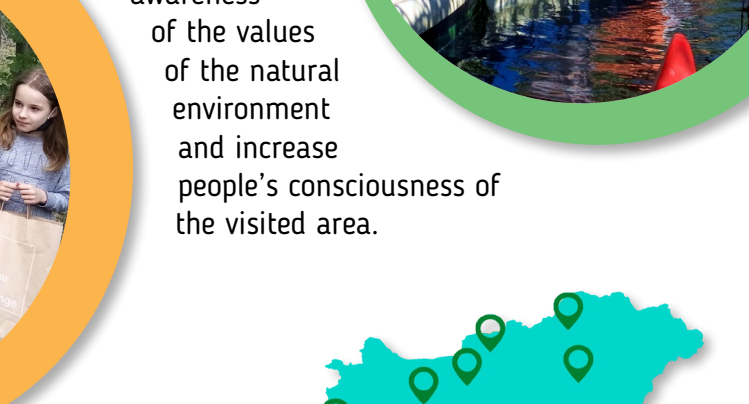

Discover Hungary's hidden treasures

the advantages of ecotourism outweigh the possible negative effects.

With the active involvement of expert **local guides**, tourism can help preserve traditions, raise awareness of the values of the natural environment and increase people's consciousness of the visited area.

Why choose Huntour

Have a safari experience in the heart of Europe: observe the birds of Hungary with us in the Puszta or while paddling on Lake Tisza, surrounded by water lilies.

Wildlife observation

Meet authentic Hungarian livestock up close on a farm or in an Animal Park, where you can also get a glimpse into and support the work of environmental engineers working to conserve the unique genetic heritage of the Carpathian Basin.

The fairytale world of forests

Get close to nature on foot, by paddling, on two wheels (traditional or e-bike), on a mountain scooter or even as part of a GPS adventure tour.

Active recreation

Try traditional Hungarian handicrafts with the help of local craftsmen, such as blacksmithing, leatherworking, pottery, glass blowing, basket weaving.

Traditional crafts

Discover the rich history of Hungary! Come with us to the ruins of an abandoned monastery in the forest, climb medieval castle walls on a hilltop or visit a water mill turned into a museum.

The name

Humtour

comes from

“Humanitarian tourism”

The idea was conceived when Ágnes, our founder was working in Venezuela in a volunteer program which gave her the chance to get to know the local people, culture and history. She founded Humtour LLC with the mission to provide first-hand and unique experiences for tourists who want to have a deeper understanding of their travel destination and help the locals.
